- AWS, Azure, Heroku, Git, Atlassian, VSTS
- OAuth, Auth0, Gigya
- TDD, BDD, SOLID, OOP, XP, DRY, YAGNI
- Agile, Scrum, Kanban, Waterfall
- Adobe Creative Suite

## CAREER HISTORY

- **Senior Technical Consultant and Front-end competency lead, Amido** (January 2013 – June 2018)

Amido is an independent, vendor-agnostic technical consultancy specialising in solving business problems with cloud native technology. As Senior Technical Consultant I specialised in front end technologies and worked across a range of clients including HSBC, NHG, Channel 4, ASOS, Northern & Shell, CBRE and Burberry. My responsibilities included leading the front-end competency and teams, defining processes and architecture, mentoring junior developers and line management.

### **Notable projects**

- **Nottinghill Homes**, March 2017 – December 2018  
Joined the project while delivery was struggling and took an overall lead role in order to improve working practices, implement standards and, successfully, deliver multiple React / Redux workstreams to deadline.
- **London City Airport**, July 2016 – March 2017  
Built a proof of concept for a multi-platform application in React Native that shared Redux state management across native and web components. I later led a team developing this POC into an Node/React/Redux Isomorphic web site driven by Contentful with an architecture that would allow for the easy production of native applications in a separate phase.
- **HSBC**, July 2016 – December 2016  
Embedded in an on-site team assisting in the delivery of a re-platforming project dealing with HSBC's credit and account application process using React and Redux.
- **CBRE**, Dec 2014 – July 2016  
Front end lead of a team of 3 - 4 developers on the creation of a React / Flux application leveraging Elastic Search and Google maps API, served and configurable via Drupal.
- **OK!**, August 2013 – November 2014  
Leading the build of a high traffic Drupal site for Northern & Shells OK! Magazine brand

**Core technologies:** React / Redux, Node, Typescript, XHTML, CSS

→ **Senior Web Developer**, Intelligent Environments (November 2010 – January 2013)

Intelligent Environments are an Agile software company specialising in online banking for clients such as HSBC, O2, BarclayCard, Lloyds and Think Banking. As senior developer in the product team, I was responsible for building the client-side framework for our product offering. This includes the desktop and mobile web products as well as the native applications for Android and iPhone. In addition to the ongoing development of our core offering my department was also responsible for branding and customising the product.

**Core technologies:** XHTML, CSS, JavaScript, .NET, XML, Native apps

→ **Senior Web Developer** – AnyWhichWay (October 2007 – November 2010)

Anywhichway is a London based agency serving clients such as Orange (Now EE), BP, ITV and Channel 4. My first 18 months was spent on site at Orange as a 'Brand Champion' within their Internal Brand and Communications team developing their UK intranet. While at Orange I was responsible for management of content, front and backend build and innovation in content and design. After returning to work within the agency I was involved in the management and development of several large- and small-scale projects.

**Core technologies:** XHTML, CSS, JavaScript, PHP, Perl, Macromedia Flash, Drupal, WordPress

→ **Web Developer** – Chemistry (June 2006 – October 2007)

**Core technologies:** XHTML, CSS, JavaScript, PHP, ASP, MySQL, SQL, Macromedia Flash

→ **Web Developer** – Exentric Thinking (August 2004 – June 2006)

**Core technologies:** XHTML, CSS, PHP, MySQL, JavaScript, Macromedia Flash

→ **Multimedia Developer** – MCSi (September 2000 – August 2004)

**Core technologies:** XHTML, CSS, JavaScript, Macromedia Flash, Macromedia Director

## **QUALIFICATIONS**

→ Certified SCRUM Master (2016)

→ BA (Hons), Multimedia design and development - 2:1 (2000)

→ BTEC National Diploma in Design (1996)
